GET `/users/player/my_gacha_list` Retrieve the list of gacha items for a user

Parameters

Try it out

No parameters

Responses

Code	Description	Links
------	-------------	-------

200	List of gacha items retrieved successfully	No links
-----	--	----------

Media type

application/json

Controls Accept header.

Example Value Schema

```
[
  {
    "gacha_id": "1",
    "name": "Auto",
    "rarity": "epic",
    "status": "available",
    "description": "Fast auto",
    "image": "iVBORw0KGgoAAAANSUgAA...",
    "locked": "unlocked",
    "acquired_date": "2023-10-01T12:00:00Z"
  }
]
```

404	No gacha items found for the user	No links
-----	-----------------------------------	----------

Media type

application/json

Example Value Schema

```
{
  "error": "No gacha items found for the user"
}
```

GET

/users/player/gacha/{user_id}/{gacha_id}
Retrieve information about a specific gacha item for a user

Parameters

Try it out

Name	Description
------	-------------

user_id * required	Example : 1
---------------------------	-------------

string
(path)

1

gacha_id * required	Example : 1
----------------------------	-------------

string

1

Code	Description	Links
200	Account topped up successfully	No links
400	Missing amount for transaction or invalid amount	No links

GET `/users/player/get_user_balance` Retrieve the balance of a user 

Parameters Try it out

No parameters

Responses

Code	Description	Links
200	User balance retrieved successfully <small>Media type</small> <div>application/json</div> <small>Controls Accept header.</small> Example Value Schema <pre>{ "currency_balance": 1500 }</pre>	No links
400	Invalid user type	No links
408	User not found	No links
500	Unexpected error	No links

GET `/users/player/get_user` Get user information  

Retrieve information for the authenticated user. Only users with the 'PLAYER' type can access this endpoint.

Parameters Try it out

No parameters

Responses

Code	Description	Links
200	<div>User information retrieved successfully.</div> <div>Media type</div> <div><div>application/json</div></div> <div>Controls Accept header.</div> <div><div>Example Value</div><div>Schema</div></div> <div><pre>{ "user_id": 0, "username": "string", "email": "string", "currency_balance": 0, "image": {}, "session_token": "string" }</pre></div>	No links
404	User not found	No links
500	Unexpected error	No links

GET

/users/player/get_user/{user_id} Get user information by ID (Admin only)

Retrieve user information by ID. This endpoint is restricted to admin users and is hidden from the API documentation.

Parameters

Try it out

Name	Description
<div><div>user_id</div><div>* required</div></div> <div>integer</div> <div>(path)</div>	<div>The ID of the user to retrieve.</div> <div><div>user_id</div></div>

Responses

Code	Description	Links
200	<div>User information retrieved successfully.</div> <div>Media type</div> <div><div>application/json</div></div> <div>Controls Accept header.</div> <div><div>Example Value</div><div>Schema</div></div> <div><pre>{ "user_id": 0, "username": "string", "email": "string", "currency_balance": 0, "image": {}, "session_token": "string" }</pre></div>	No links
404	User not found	No links
500	Unexpected error	No links

PUT

/users/player/update_balance/{user_type}

Update the balance of a user

^

Parameters

Try it out

Name	Description
<div><div>user_type</div><div><div>*</div> required</div></div>	<div>Available values : PLAYER, ADMIN</div> <div>Example : PLAYER</div>
<div>string</div> <div>(path)</div>	<div>PLAYER</div>

Request body

required

application/json

Example Value

Schema

```
{
  "user_id": "1",
  "amount": "100",
  "type": "credit"
}
```

Responses

Code	Description	Links
200	Balance updated successfully	<i>No links</i>
400	Missing data to update balance	<i>No links</i>
404	User not found	<i>No links</i>
500	Unexpected error	<i>No links</i>

ADMIN Administrative functions and authentication

POST `/users/admin_auth/register` Register a new admin

Parameters

Try it out

No parameters

Request body required

multipart/form-data

username
string

password
string

email
string

Responses

Code	Description	Links
201	Admin successfully registered	<i>No links</i>
400	Missing required fields	<i>No links</i>

Code	Description	Links
409	Username or email already exists	No links
500	Unexpected error	No links

POST `/users/admin_auth/login` Login an admin and retrieve a JWT token

Parameters

Try it out

No parameters

Request body required

application/json

Example Value Schema

```
{
  "username": "admin123",
  "password": "securepassword"
}
```

Responses

Code	Description	Links
200	Successful login and returns a JWT token Media type <div>application/json</div> <small>Controls Accept header.</small> Example Value Schema <pre>{ "token": "jwt_token", "message": "Login successful", "user_id": "1" }</pre>	No links
400	Invalid user type	No links
401	Invalid credentials	No links
500	Database error	No links

DELETE

/users/admin_auth/logout

Logout the admin

^

Parameters

Try it out

No parameters

Responses

Code	Description	Links
200	Successful logout	No links
401	Invalid user type	No links
500	Unexpected error	No links

TRANSACTION

Handles in-game currency transactions for players and administrators

^

POST

/transaction/add_transaction

Add a new transaction

^

Parameters

Try it out

No parameters

Request body

required

application/json

Example Value

Schema

```
{
  "user_id": "1",
  "amount": 100,
  "type": "credit"
}
```

Responses

Code	Description	Links
200	Transaction added successfully	No links
500	Failed to add transaction	No links

GET `/transaction/get_user_transactions/{user_id}` Retrieve all transactions for a user ^

Parameters

Try it out

Name	Description
user_id * required	Example : 1
string (path)	<input type="text" value="1"/>

Responses

Code	Description	Links
200	Transactions retrieved successfully	No links
	<div>Media type</div> <div><div>application/json</div></div> <div>Controls Accept header.</div> <div><div>Example Value</div><div>Schema</div></div> <div><pre>[{ "transaction_id": "txn_001", "user_id": "1", "amount": 100, "type": "credit", "timestamp": "2023-10-01T12:00:00Z" }]</pre></div>	
400	User_id not found	No links
404	No transactions found	No links

GET `/transaction/get_user_transactions` Retrieve all transactions for current user ^

Parameters

[Try it out](#)

No parameters

Responses

Code	Description	Links
200	Transactions retrieved successfully Media type <div>application/json</div> <small>Controls Accept header.</small> Example Value Schema <pre>{ "transaction_id": "txn_001", "user_id": "1", "amount": 100, "type": "credit", "timestamp": "2023-10-01T12:00:00Z" }</pre>	No links
400	User_id not found	No links
403	Admin can not get their own transactions	No links
404	No transactions found	No links

GET **/transaction/get_transaction** Retrieve a specific transaction

Parameters

[Try it out](#)

Name	Description
transaction_id * required string (query)	Example : txn_001 <div>txn_001</div>

Responses

Code	Description	Links
200	<div>Transaction retrieved successfully</div> <div>Media type</div> <div>application/json</div> <div>Controls Accept header.</div> <div>Example Value Schema</div> <div><pre>{ "transaction_id": "txn_001", "user_id": "1", "amount": 100, "type": "credit", "timestamp": "2023-10-01T12:00:00Z"}</pre></div>	No links
404	Transaction not found	No links

GET

/transaction/all Retrieve all transactions

^

Retrieve all transactions from the database.

Parameters

Try it out

Name	Description
user_id	Example : 1
string	<div>1</div>
(query)	

Responses

Code	Description	Links
200	<div>A JSON array of all transactions</div> <div>Media type</div> <div>application/json</div> <div>Controls Accept header.</div> <div>Example Value Schema</div>	No links

Code	Description	Links
	<pre>[{ "transaction_id": 1, "user_id": 123, "amount": 100, "date": "2023-10-01T12:00:00Z" }]</pre>	
404	No transactions found	No links

AUCTIONS

Handles the creation and management of auctions and bids

POST	/auctions/add	Add a new auction	⌵
Parameters		<div>Try it out</div>	
No parameters			
Request body required		<div>application/json</div>	
<div><div>Example Value</div><div>Schema</div><pre>{ "gacha_id": "1", "base_price": 100 }</pre></div>			
Responses			
Code	Description	Links	
201	Auction created successfully	No links	
400	Missing data to create auction	No links	
403	Unauthorized access	No links	
404	Gacha is locked or not exist	No links	

Code	Description	Links
500	Unexpected error	No links

GET	/auctions/check_auction_status	Check and update the status of auctions	⌵
Parameters		<button>Try it out</button>	
No parameters			
Responses			
Code	Description	Links	
200	Auction status updated successfully	No links	
	Media type		
	<div>application/json</div>		
	Controls Accept header.		
	Example Value	Schema	
	<pre>{ "message": "Auction status updated successfully" }</pre>		
500	An error occurred while checking auction status	No links	
	Media type		
	<div>application/json</div>		
	Example Value	Schema	
	<pre>{ "error": "An error occurred while checking auction status" }</pre>		

GET	/auctions/all	Retrieve all auctions or filter by auction status	⌵
<p>This endpoint retrieves all auctions from the database. Optionally, it can filter the auctions based on their status (active or expired) using a query parameter.</p>			
Parameters		<button>Try it out</button>	

Name	Description
------	-------------

status string (query)	<div>The status of the auctions to filter by. Can be "active" or "expired". Available values : active, expired, completed</div> <div>--</div>
-----------------------------	---

Responses

Code	Description	Links
200	<div>A JSON response containing a list of auctions.</div> <div>Media type</div> <div>application/json</div> <div>Controls Accept header.</div> <div>Example Value Schema</div> <div><pre>{ "auctions": [{ "additionalProp1": {} }]}</pre></div>	No links
500	Unexpected error occurred	No links

GET /auctions/all_active Retrieve all auctions or filter by auction status

Parameters

Try it out

No parameters

Responses

Code	Description	Links
200	<div>A JSON response containing a list of auctions.</div> <div>Media type</div> <div>application/json</div>	No links

Code	Description	Links
	Controls Accept header.	
	<div>Example Value</div> <div>Schema</div> <pre>{ "auctions": [{ "additionalProp1": {} }] }</pre>	
500	Unexpected error occurred	No links

`/auctions/get_gacha_auctions` Retrieve gacha auctions based on gacha_id

Code	Description	Links
	Controls Accept header.	
	<div>Example Value</div> <div>Schema</div> <pre>{ "auctions": [{ "additionalProp1": {} }] }</pre>

	Controls Accept header.	
	<div>Example Value</div> <div>Schema</div> <pre>{ "auctions": [{ "additionalProp1": {} }] }</pre>	
500	Unexpected error occurred	No links

Code	Description	Links
	Controls Accept header.	
	<div>Example Value</div> <div>Schema</div> <pre>{ "auctions": [{ "additionalProp1": {} }] }</pre>	
500	Unexpected error occurred	No links

Code	Description	Links
	Controls Accept header.	
	<div>Example Value</div> <div>Schema</div> <pre>{ "auctions": [{ "additionalProp1": {} }] }</pre>	
500	Unexpected error occurred	No links

Code	Description	Links
400	Missing gacha_id parameter	No links
404	No auctions found for the gacha	No links
500	Database error occurred	No links

POST

/auctions/bid Place a bid on an auction

^

This endpoint allows a user to place a bid on an auction.

Parameters

Try it out

No parameters

Request body required

application/json

Example Value Schema

```
{
  "auction_id": "string",
  "bid_amount": 0
}
```

Responses

Code	Description	Links
200	<div>Bid placed successfully</div> <div>Media type</div> <div>application/json</div> <div>Controls Accept header.</div> <div>Example Value Schema</div> <div><pre>{ "message": "string" }</pre></div>	No links
400	Missing data for bid	No links

Code	Description	Links
403	You can't place a bid as an admin	No links
408	Auction not found or already ended	No links
409	Failed to place bid	No links
500	Database error occurred	No links

GET

/auctions/bids

Retrieve bids for a specific auction

^

This endpoint handles GET requests to retrieve bids for a specific auction.

Parameters

Try it out

Name	Description
auction_id * required string (query)	The ID of the auction to retrieve bids for. <div>auction_id</div>

Responses

Code	Description	Links
200	<div>A JSON response containing the list of bids.</div> <div>Media type</div> <div><div>application/json</div></div> <div>Controls Accept header.</div> <div><div>Example Value</div><div>Schema</div></div> <div><pre>{ "bids": [{ "additionalProp1": {} }]}</pre></div>	No links
400	Missing auction_id parameter	No links

Code	Description	Links
500	Database error occurred	No links

GACHA

Handles gacha items and inventory management

POST	/gacha/add	Add a new gacha item	^
Parameters		Try it out	
No parameters			
Request body required		multipart/form-data	
<div><div>name</div><div>string</div><div>rarity</div><div>string</div><div>status</div><div>string</div><div>description</div><div>string</div><div>image</div><div>string(\$binary)</div></div>			
Responses			
Code	Description	Links	
201	Gacha item added successfully	No links	
	Media type		
	application/json		

Code	Description	Links
	<div>Controls Accept header.</div> <div><div>Example Value</div><div>Schema</div><pre>{ "message": "string" }</pre></div>	
400	Missing data to add gacha item	No links
500	Database error	No links

POST /gacha/roll Perform a gacha roll for a random item

Parameters

Try it out

No parameters

Responses

Code	Description	Links
200	<div>Gacha roll successful</div> <div>Media type</div> <div>application/json</div> <div>Controls Accept header.</div> <div><div>Example Value</div><div>Schema</div><pre>{ "message": "string", "gacha_id": "string", "name": "string", "rarity": "string" }</pre></div>	No links
400	Missing data for gacha roll	No links
403	Insufficient funds for gacha roll	No links
500	Failed to add gacha item to user inventory	No links

GET /gacha/inventory/{user_id} Retrieve a user's gacha inventory

Parameters

[Try it out](#)

Name

Description

user_id * required

user_id

string

(path)

Responses

Code

Description

Links

200

User inventory retrieved successfully

No links

Media type

application/json

Controls Accept header.

Example Value Schema

```
{
  "inventory": [
    {
      "gacha_id": "string",
      "name": "string",
      "rarity": "string",
      "status": "string",
      "description": "string",
      "acquired_date": "string",
      "locked": true,
      "image": "string"
    }
  ]
}
```

404

No gacha items found for user

No links

POST

/gacha/inventory/add Add a gacha item to a user's inventory

Parameters

[Try it out](#)

No parameters

Request body required

application/json

Example Value Schema

```
{
  "gacha_id": "string"
}
```

Responses

Code	Description	Links
201	<div>Gacha item successfully added to user's inventory</div> <div>Media type</div> <div>application/json</div> <div>Controls Accept header.</div> <div>Example Value Schema</div> <div><pre>{ "message": "string" }</pre></div>	No links
400	Missing data to add gacha to inventory	No links
404	User or gacha item not found	No links

GET /gacha/all Retrieve all gacha items

Parameters

Try it out

Name	Description
offset	The number of items to skip
integer (query)	<div>offset</div>

Responses

Code	Description	Links
200	<div>Gacha items retrieved successfully</div> <div>Media type</div> <div><div>application/json</div></div> <div>Controls Accept header.</div> <div><div>Example Value</div><div>Schema</div></div> <div><pre>{ "message": [{ "gacha_id": "string", "name": "string", "rarity": "string", "status": "string", "description": "string", "image": "string" }] }</pre></div>	No links
